Dramatic Society Presents Good Play

The Blussen Dramatic Society have been making history in this district with their representation of "Getting Even With Reggie." After playing to a record house at Blussen on Thursday, March 31, the play was run on in Champion on Monday April 4th, and in spite of indoor restrictions a good crowd was present on the second presentation. Following is the cast of characters. Reginald DeBinger... Norman Carlson Dorothy Davis... Helen Woodhall Vestal Vernon... Mary Ellis Pauline Phillips... Mary Howard Dale Ford... Maxine Johnson Hazel Harding... Myrtle Eaton Gladys Grant... Margaret Carlson Harold Harcourt... Edna Watkins Walter Phillips... Ida Watkins Jim Bates... Robert Harrigan Nina Morgan... Jude Barriger Harry Howard... Leola Johnson Harold... Louis Philpott Director... Mrs. W. R. McRae Director... Mrs. W. C. Cain

In both instances those present were more than pleased with the character of the play and the excellent work of the individuals taking part, the result showing careful preparation as well as considerable dramatic ability on the part of the amateur actors. Those who ever had charge of the company is entitled to more than the usual mode of praise. It is hoped the Blussen Dramatic Society will be heard from again.

W. K. Anderson left on Thursday evening for Hamilton, Man., where he will join Mrs. Anderson and will leave for Hamilton, Ont., and other eastern points. His vacation will last some three weeks. A son of W. Isaacson had the misfortune to get a finger caught in a power washing machine, sustaining painful injuries which may result in the loss of a finger.

Mr. and Mrs. Charles Anderson are rejoicing in the birth of a son, the event occurring on Sunday, March 27th. Charles immediately bought a bruise on the arm entangled another half section of land.

Tennis Club Organized

On Tuesday night at 8:30 the Champion Tennis Club held its annual meeting in the staff quarters of the Canadian Bank of Commerce. There were present some twenty of our prominent business men. The annual report on the affairs of the club showed that it was in excellent shape financially, that even a small balance was standing to the credit of the club from last year's subscriptions.

The following officers were elected: G. M. Campbell, President, C. G. Manitou, Secretary, and also the Ground Committee consisting of Messrs. J. N. Moffatt, B. Hummel, W. M. Oliver, and Mrs. E. C. Johnson.

The subscription for the season will be the same as last year namely, gentlemen \$5.00, ladies \$3.00.

The club anticipate a large membership and the courts will be put in first class shape; the work on them will be commenced immediately, so as to insure an early opening as soon as the weather will permit.

Anyone wishing to join will kindly communicate with the president or the Secretary Treasurer. It is hoped this season to promote a local tournament and also inter-town matches.

Presence of mind and unusual strength saved Barney Hamel from a very dangerous situation on Friday last. While running his machine drill the sleeve of his short became unbuttoned and the button caught in the drill. He wrenches himself partly loose, tearing off his coat and shirt sleeve, but strips remaining again wound up in the drill, throwing him finally to the side of the drill post where he managed to reach the belt and stop the drill. Beyond tearing one side of his clothing completely off he received no injuries beyond a bruise on the arm entangled in the drill.

World Happenings Briefly Told

The office of fuel commissioner is being abolished in Ontario.

The city of Windsor will not adopt daylight saving time.

John Brereton, world-famous naturalist, died suddenly in a New York Central train at Kingsville, Ohio.

Hon. George M. Murray, premier of Nova Scotia since 1896, will retire from active politics owing to ill-health.

Nearly one-fifth of the total strength of the British army all over the world is now stationed in Ireland.

The total fire loss in Saskatchewan during 1920 was \$2,800,000. This is an increase over 1919 of about \$400,000.

Mrs. George M. Pullman, widow of the inventor of the Pullman car, died at Pasadena, Cal., recently after a brief illness.

Alberta teachers are preparing for the appointment of a Dominion Minister of Education, with a view of forming a national educational policy.

Bishop Fallon had 600 Knights of Columbus at Hamilton, Ont., who was convinced the fathers of Confederation favored denominational schools.

In order to vote on the Ontario liquor referendum, those making application to have their names placed on the voters' lists, must be present in person.

Lieut. MacIntosh, who last year left England to Australia, was killed in an accident recently at Perth, 300 miles northwest of Perth, Australia.

Purchase of two grams of radium for \$2,500,000 francs has been voted by the municipal council of Paris. The radium will be used in fighting the ravages of cancer.

It is now possible to make it an offence for a member of either sex to wear a bathing costume that does not extend "from the neck to within four inches of the knee" has been suggested in Britain.

The London medical gazette publishes a code of medical prohibitions, except under license, also importation into the United Kingdom of firearms, cartridges, bombs, depth charges, flame throwers, torpedoes, ammunition or any lethal weapons.

Could Not Sleep

Mr. Ernest Clark, Police Officer, 238 King St., Kingston, Ont., writes:

"For three years I suffered from nervousness and sleeplessness. I believe my condition was brought on by overwork. I had frequent headaches, neuralgic pains and twitches of nerves and muscles. I had indigestion, was short of breath and easily fatigued. I consulted a treatment of Dr. Chase's Nerve Food, and seven boxes of this medicine relieved me of all my symptoms. I am now feeling one hundred per cent, better than I was, and have to thank Dr. Chase's Nerve Food for the good health I am now enjoying."

Dr. Chase's Nerve Food, 50 cents a box, \$6 for \$2.75, all dealers, or Edmunds, Sales & Co., Ltd., Toronto.

Will Have New Coin

Canada Will Mint Seven Million Nickels Next Year.

If the resolution, notice of which was made in the house by Sir Drayton, the Minister of Finance, is passed, Canada will shortly have a new five-cent piece composed of pure nickel metal. It is proposed to have the coin weigh 70 grains and to make it the same size or very nearly the same size as the new Canadian one cent piece.

The American five-cent piece which is popularly called a "nickel" is generally thought to be composed of the nickel metal, is in reality only 25 per cent nickel and 75 per cent base metal.

As all Canadian metal monies must have the same face value as the new piece will bear the familiar signatures of His Majesty and the words, "George V Dei Gra. Rex Et Ind. Imp." There may be some slight change in the signatures.

If legislation is passed authorizing the minting of these new coins some 700,000,000 would have to be run in the first year. This is about the average number of five-cent pieces issued yearly. Several reasons are suggested for the new coin. In the first place, nickel mines are at present nearly at a standstill and although the metal required to make 7,000,000 such coins as are suggested is not large, "very little bit help" is in making the wheels of industry go.

During the high price period of silver it was found that the face value of the Canadian five and 25 cent pieces was less than its intrinsic value. Consequently the new coins were taken into circulation and melted down. Such legislation as is now asked for is intended to forestall any such repetition in the future.

Work of Reparation Agents

280,000 Prisoners of War Taken Out of Russia by Entente.

Two hundred and eighty thousand war prisoners were taken out of Russia or sent back by the various Baltic routes up to the middle of March by reparations agents of the League of Nations, it was announced by the League of Nations News Bureau.

Hundreds of thousands of prisoners remain in Russia, and it is still not known when they will be repatriated.

The American repatriation commission has contributed \$865,000 toward the expense of the work furnishing means for restoring 10,587 prisoners.

The Prince of Wales' Hat

Recently it was made known that the Prince of Wales outwitted the

hastiest tale about him, that he had picked himself up after a toss at the end of last week, someone giving him back his hunting hat, pointed out that "the hat is mine," "Oh, it's mine," said the Prince, adding, "that's my third-in-ten days." I think I had better order them by the gross."

Minard's Liniment Relieves Neuralgia

Ontario's Mine Output.

The value of Ontario's mine output for the year 1920 was \$46,000,000, according to the report of the Provincial Department of Mines.

This included \$16,309,000 as against a total of \$11,665,000 in 1919, as against a total of \$10,270,000 in 1918, and the total production in 1920 was worth \$10,819,673, which was about \$2,000,000 less than during the previous year. The value of nickel matte product of 1920 was \$10,683,500, compared with \$7,940,403 in 1919.

An excellent protection against pains can be got in Miller's Wren Powders. They render the stomach and intestines strong and healthy. They heal the surfaces that have become inflamed by the attacks of the parasites and serve to expel them from the body. They help to keep the nerves from being damaged by the draughts that the worms have made upon it, and that their operation is altogether health giving.

NOTES AND COMMENT

The series of Calgary Daily Herald advertisements appearing in The Chronicle and other Alberta weeklies form an interesting experiment in the value of advertising in what are known as local papers. For their enterprise in this direction alone The Herald is to be complimented. The greatest friend of any publication would be forced to admit that The Herald is undoubtedly the greatest western daily in practically every respect, and the enterprise which puts such a publication at the disposal of residents of Alberta is deserving of every reward in the way of general support. The advertising campaign undertaken to boost county circulation is fully up to Herald standards, and is recommended to your careful consideration.

Canadian Red Cross Activities

With the beginning of April active organization is under way throughout the whole of Canada for the forthcoming Red Cross membership enrollment and this month will witness extensive activity in every province in preparation for the simultaneous effort to list every man, woman and child in the Dominion of Canada as a member of the Red Cross Society. In the western provinces the week of June 6th to 11th has been selected as the date of the enrollment canvas. In some of the eastern provinces the canvas will take place during the last week of May.

The date of the campaign is in accordance with the resolution of the League of Red Cross Societies' calling for a universal membership enrollment in all of the countries subscribing to the League and suggesting the month of May as the time for this campaign in all countries where the local conditions permit.

Plans for this campaign have been under consideration by the Red Cross for many months and already in Alberta much preliminary work has been done. An active campaign organization has been set up under the direction of Brigadier General H. F. McDonald and a number of enthusiastic volunteers are already touring the province forming the necessary local committees for this effort.

The universal membership enrollment is an essential preliminary, with the general introduction of the peace time policy of the Red Cross. Albertans are already familiar with the great peace plans of this organization our province having been a pioneer in the introduction of its peace programme for "improvement of health, the prevention of disease and the mitigation of suffering throughout the world."

I am convinced that the only manner in which we can escape from the difficulties that lie ahead is by an increase in the population of this country. And that must come, largely, through immigration. Now, when we get immigration to this country we want to use some discrimination in whom we are taking to Canada. Our possibilities are such, our great fertile plains and all parts of Canada are such that we can bring people to Canada, and, if necessary, we should be able to assist them a little bit after they come here. This policy of immigration should go hand in hand with the railway problem. We want to bring people to this land, and, I submit, they should be people who will go on the

axises.

"We have enough people in our cities. I am told you have what is called a bread line in the city of Toronto. Well, I want to tell you that they have no bread-lines out in the rural districts of Canada, and consequently, we do not wish to congregate more people in our cities. We wish to bring to Canada people who will go on the land, and cultivate the land, and produce off the land. We can get them. There are lots of them available who will come here, attracted by our cheap lands, and we want to give all the assistance possible and we want to settle these people along the lines of the National Railways and create potential business for the roads."

In the last quarter of the year there were 2246 outrages in Ireland. Eighty-eight policemen were killed and 156 wounded, while 44 soldiers were killed and 81 wounded. The total outrages of the whole year number 10,894. The police killed totalled 233 and the wounded 3,810. The soldiers killed numbered ninety and wounded 202.

The Higher The Lower

On the sleeper from Chicago to Grand Rapids, two future buyers were exchanging the experiences and ideas. "The people around Chicago are getting too darned polite," said one. "Everybody is looking for that 'politeness seeker' who carries the tickets good for \$50 with him that he gives to the most unlikely person he meets. I guess the 'ticket taker' at the depot thought I was one of the people." Let me have sleeping accommodations at Grand Rapids," said the passenger to the window. "For a single passenger," he asked. "No," I replied. "I'm married, but I am not taking anybody with me. A single shelf will answer. 'Upper or lower?' he asked. "What's the difference?" I enquired.

The difference is fifty cents," came the answer. "Our prices to Grand Rapids are \$1.50 and \$1.00." You understand of course," went on the agent, clasping his hands and looking at me earnestly, "that the lower the price, the higher the lower." You understand that the lower is higher than the upper. The higher price is for the lower berth. If you want it lower, you'll have to go higher. We sell the upper and the lower. The upper is the higher, the lower is the lower. That's the higher, the lower." Why do they all prefer the lower?" I interrupted.

"Because of its convenience," said the agent. "Most people don't like the upper. They are afraid to sleep on account of it being higher and also because when you occupy an upper, you have to get up to go to bed and then get down when you get up. I would advise you to take the lower, although I don't think you will. You see, me and I have just mentioned—that the upper is lower than the lower because it is higher. Of course, you can have the lower if you pay higher, but if you are willing to go higher, it will be lower."

Card of Thanks

Rev. and Mrs. J. W. Oliver wish to thank the people of the Champion community for the many tokens of sympathy received during their recent bereavement.
